(Note: Washington Distribution Indicated By "X", Field Distribution By "#") Form No. 51-61, January 1953

50X1-HUM

about 15 March 1953, a coal conservation program was put into effect for Messhart vessels whereby tugboats are now permitted to make trips downstream from Vienna only when more than one barge is attached. Also each ship captain is required to keep a record of the amount of coal used and the number of tons per kilometer (Kilate) used for each trip.

2. The reason for these measures is that there is a coal shortage in Hungary.
